

PVC sleeving - WRZP*

NOTES:

High temperature Sleeving used in the protection & identification of conductors.

- *Designed to fit conductor sizes 1.5mm² – 240mm²
- **Standard colours (above 25mm² black only) are: Black (BK), Red (RD), Brown (BN), Blue (BE), Yellow (YW), White (WE) and Green / Yellow (GN/YW).
- ***Available 3m lengths or 100m rolls as standard.

Part Code: WRZP*conductor size / **colour / ***length

For example WRZP1.5/BK/3M for 1.5mm sleeving in black, 3 metre length
 *Available to fit conductor sizes 1.5mm² - 240mm²

Specification		
MATERIAL CHARACTERISTICS	REF BS 2848 type 3/105t	TEST METHODS
Continuous temperature	-20 c ^o to 105 c ^o	-
Insulation resistance	e 10 ¹⁰ ohm / cm	-
Dielectric strength	25 kv/mm	IEC 243
Tensile strength	18 mpa	ISO 37
Elongation at break	250%	ISO 37
Hardness	Bss25-35	-
Flammability	Self extinguish in 30 seconds	-
Specification	BS2848/3/105t	-
ROHS compliant	Yes	-
