YOUR CHALLENGES. SOLVED

MINERAL INSULATED COPPER CLAD (MICC) CABLE
SOLVING FACILITY MANAGER PAIN POINTS

Fire Safety & Compliance

Problem:
High premiums and risk exposure.

MICC Advantage:
Reduces fire risk and toxic smoke.

Why it **Matters..**

Stay compliant, protect lives, avoid liability.

Downtime & Maintenance Costs

Problem:
Expensive outages and constant maintenance.

MICC Advantage:
50+ year lifespan, minimal upkeep.

Why it **Matters..**

Fewer interruptions, lower costs.

Insurance & Risk Reduction

Problem:
High premiums and risk exposure.

MICC Advantage:
Reduces fire risk and toxic smoke.

Why it **Matters..**

Lower insurance, safer buildings.

VALUE, AESTHETICS & SUSTAINABILITY

Space & Aesthetics

Problem:
Limited space and messy cabling.

MICC Advantage:
Thin, flexible, clean finish without bulky containment.

Why it **Matters..**

Simplifies installs, suits premium properties.

Sustainability

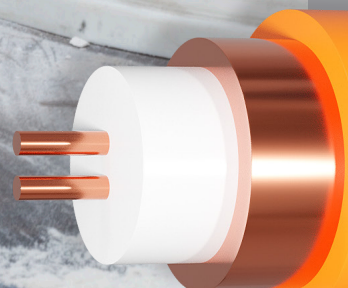

Problem:
Pressure to meet green building standards.

MICC Advantage:
100% recyclable, non-toxic, long-lasting.

Why it **Matters..**

Supports eco-goals and future-proofing.

IMAGINE A CABLE THAT
**NEVER BURNS AND LASTS
50+ YEARS.....**
.....THAT'S MICC
